We understand that you personally may not have funds immediately available to meet the significant cost of applying for probate and so as a matter of goodwill to our clients, our firm has also adopted a policy of not seeking upfront payment of our costs and disbursements until estate funds become available in trust to meet them. However, in matters where there is unlikely to be sufficient assets converted to cash by the estate to meet the estimated costs, we may ask you to pay the estimated costs and disbursements into our trust account before we lodge the probate application.

Work done after the grant of probate or letters of administration will be charged at the applicable hourly rate for our staff member performing the work. The majority of this work will be attended to by a law clerk under the supervision of the solicitor with carriage of the matter. Our hourly rates, which vary according to staff experience, are published on our website and in our reception area.
